

Meeting: 1127, Bloomington, Indiana, SS 6A, Special Session on Algebraic and Enumerative Combinatorics with Applications

Yuri Movsisyan*, Alex Manoogian 1, Yerevan State University, 0025 Yerevan, Armenia. *On functional equations and distributive second order formulae.*

The structure of invertible algebras with distributive second order formulae with specialized quantifiers is given. As a consequence, the applications for solutions of the some functional equations of distributivity on quasigroups are provided. (Received February 04, 2017)
