

SUMMER SCHOOLS

Immersive and interdisciplinary summer **programmes designed for international students** to explore key global themes through lectures, workshops, and hands-on experiential activities.

Made in Italy: Culture, Food and Luxury

The Summer School is aimed at international students aged between 18 and 22 who are interested in learning about and deepening their knowledge of the cultural, linguistic, economic, and territorial aspects of Made in Italy.

Activities follow an interdisciplinary approach that integrates lectures, workshops, laboratories, and experiential on-site activities.

International Security in a Changing World

The Summer School is aimed at international students aged between 18 and 22 who are interested in learning about and deepening their knowledge of cultural, linguistic, and cybersecurity aspects within the field of International Security in a Changing World.

Activities are carried out using an interdisciplinary approach that integrates lectures, laboratories, workshops, and experiential activities on site.
